2022 SEAHORSE ANNUAL DINNER

2022 Reunion

Finally, we are able to return to the club to celebrate our Annual Seahorse Dinner after over 2 years of cancellations because of covid. We are all very excited at getting back together and are looking forward to having a great night of reminiscences.

We are lucky to have as the main speaker on the night our Commodore Ross Lloyd who will recount his life both as a sail maker and experiences sailing both dinghies and offshore yachts at various venues around the world. This will make an interesting evening.

As you know the Elwood Sailing Club's centenary will be celebrated in March 2024 and so we have joined with the club to be involved in producing a publication marking this exciting milestone. Barbara Lloyd has commenced interviewing past and present members for content and is also charged with the production of a book. The project is well underway, and she will bring us up to date on its progress.

Our thanks are due to those members who have donated money previous to this project to help defray the costs of this historic book.

Over the last few years past and current members and families have donated many items of personal sailing memorabilia back to the club to be exhibited and cared for by its members. If any members have any items pertaining to ESC, it is always welcome and will be acknowledged accordingly.
